

# **AGRI SECTOR EDUCATION AND TRAINING AUTHORITY**

## **SECTOR SKILLS PLAN**

FOR THE PERIOD

**2006 - 2010**

November 2006

I must study politics and war that my sons may have liberty to study mathematics and philosophy. My sons ought to study mathematics and philosophy, geography, natural history, naval architecture, navigation, commerce, and **agriculture**, in order to give their children a right to study painting, poetry, music, architecture, statuary, tapestry, and porcelain.

**John Adams**

*US diplomat & politician (1735 - 1826)*

Each generation has to do away with life's problems that hinder the development of future generations so that future generations can dedicate themselves to the enjoyment and development of the more amiable things life can offer.

Unfortunately, so often we find that we are still trapped in the first step, not able to move forward.

**Rosa Ballard**

*2006*

This 2006 – 2010 AgriSETA Sector Skills Plan was developed by AgriSETA staff with the assistance of the consulting firm MANSTRAT cc. We would like to thank all the individuals and organisations that have contributed and made inputs to the SSP. In particular we would like to express our gratitude to the members of the AgriSETA Skills Planning Committee and those stakeholders who contributed during the various SCC Workshops where Scarce and Critical Skills for the various sub-sectors were identified.
