UNIT STANDARD**TITLE****Applying water to landscaped areas****UNIT STANDARD NUMBER: 119702****UNIT STANDARD LEVEL: NQF 1****CREDITS: 3****FIELD: Agriculture and Nature Conservation****SUB FIELD: Horticulture****ISSUE DATE: 2006-02-09****REVIEW DATE: 2009-02-09**

PURPOSE OF THE UNIT STANDARD

This standard is aimed at people who work in or intend to work within the Horticulture industry in general and as applied in a specific environment.

Those learners who acquire the outcomes of this standard will be able to apply water to landscaped areas.

The qualifying learner is able to:

- Apply the optimum amount of water to various plants to ensure healthy growth and development.
- Select the most suitable watering equipment to water various plantings.
- Select the appropriate frequency of watering to suit prevailing conditions.
- Demonstrate the correct methods of watering to prevent run-off and wastage.
- Utilise knowledge of good watering practices for the propagation and care of plants.

LEARNING ASSUMED TO BE IN PLACE

Demonstrate knowledge of communication and Numeracy at Abet level 3.

Continued on next page

Specific Outcomes and Assessment Criteria:**Specific Outcome 1**

Select the most appropriate time of day, or conditions to conduct watering.

Outcome Range:

The range includes but is not limited to:

- High evaporation rate, low evaporation rate – still air, coolest time of the day, dew point wind, hottest time of the day.

Assessment Criteria

1. Describe the climatic factors that negatively affect watering efficiency.
2. Explain the consequences of watering in windy conditions.
3. Explain the effects of conducting watering at the hottest time of the day.
4. Describe the ideal time and climatic conditions for watering.

Specific Outcome 2

Select and demonstrate the use of watering equipment to affect an application rate that suits various soil conditions.

Outcome Range:

The range includes but is not limited to:

- Hose end nozzles, watering can nozzles and spouts, cone sprinklers, rotary sprinklers, infiltration rate of soils, prevent water wastage, puddling, run-off, slopes, and degree of compaction.

Assessment Criteria

1. Describe the infiltration rates of various soil types.
2. Explain the necessity of applying water at or below the infiltration rate.
3. Explain the effect that slopes and compaction have on the infiltration rate of soils.
4. Demonstrate the various hose and spray nozzles and their adjustments.
5. Demonstrate examples of hose end cone sprinklers, their application rates and uses.
6. Demonstrate examples of hose end rotary sprinklers, their application rates and uses.
7. Demonstrate the correct rate of application of water to suit various soil types.

Specific Outcome 3

Show an understanding of the seasonal water requirements of plants.

Outcome Range:

Ratio of climatic various, rainfall received, scheduled watering frequency, schedules timing of water application, testing of the soil, water content.

The range includes but is not limited to:

- Summer, spring, autumn and winter, water plant usage, dormant periods, deciduous shrubs and trees.

Assessment Criteria

1. Explain the relationship that the various seasons have on the water requirements of plants.
2. Describe the necessity of modifying the frequency and length of watering times to cope with seasonal changes in evapotranspiration rates.
3. Explain the need to reduce the watering of deciduous plants in their dormancy period.
4. Modify the frequency and quantity of watering to suit the evapotranspiration and rainfall.

Specific Outcome 4

Modify the frequency and quantity of watering to suit the evapotranspiration and rainfall.

Outcome Range:

The range includes but is not limited to:

- Ratio of climatic variation, rainfall received, schedules watering frequency, schedules timing of water application, testing of the soil water content.

Assessment Criteria

1. Explain the importance of increasing the watering timing, relative to an increase in E.T.
2. Explain the modification of the frequency of watering to suit varying climatic conditions.
3. Demonstrate the use of a rain gauge and the reading of received rainfall.
4. Describe the adjustment of watering times, in response to rainfall received.
5. Explain the importance of regular testing of the soil water content.
6. Demonstrate the procedures for the manual testing of the soil water content.

Unit Standard Accreditation and Moderation Options

1. Internal moderation.
2. External moderation.
3. Moderation of assessment will be overseen by the relevant ETQA, according to the moderation guidelines in the relevant qualification the agreed ETQA procedures.
4. Internal assessment.
5. External assessment with the relevant registered/accredited industry body/ETQA.
6. An Assessor accredited by the relevant ETQA, will assess the Learner's competency.
7. Formative and summative assessment of qualifying Learners against this unit standard should be in alignment with the requirements of the NSB.
8. Practical assessment activities will be used that are appropriate to the contents in which the qualifying Learners are working.
9. Assessment will include self and peer assessment, practical and oral assessment, observations, questions and answers, etc.
10. Direct observation is required in simulated or actual work conditions.
11. Reporting skills are demonstrated by effective communication, using verbal and/or writing skills.
12. Assessments are to be structured to include formative and summative component, as well as the submission of a Portfolio of Evidence.
13. The assessment should ensure that all the specific outcomes, critical cross-field outcomes and embedded knowledge are assessed.
14. Specific outcomes must e assessed in their own right, through oral and practical evidence and cannot be assessed by observation only.
15. Essential embedded knowledge must be assessed in their own right, through oral and practical evidence and cannot be assessed by observation only.
16. Special outcomes and essential embedded knowledge must e assessed in relation to each other.
17. If qualifying Learners are able to explain the essential embedded knowledge, but are unable to perform the specific outcomes, then they should not be assessed as competent.
18. If qualifying Learners are able to perform specific outcomes, but are unable to explain the essential embedded knowledge, they should not be assessed as competent.
19. Evidence of the specified critical cross-field outcomes should be found, both in performance and in essential embedded knowledge.
20. Ass assessment activities must be fair, so that all Learners have equal opportunities. Activities must be free of gender, ethnic or other bias.
21. This unit standard can be assessed together with any other relevant registered unit standard.

Embedded Knowledge

Embedded knowledge is reflected within the assessment criteria of each specific outcome and must be assessed in its own right, through oral and written evidence. Observation cannot be the only assessment.

Critical Cross Field Outcomes

- Identify and solve problems in which responses display that responsible decisions using critical and creative thinking have been made – specific outcome 1, 2 and 3.
- Work effectively with others as a member of a team, group, organisation or community. Specific outcome embedded in the learning for this level of learner.
- Organise and manage oneself and one's activities responsibly and effectively. Specific outcome 1, 2 and 3.
- Collect, analyse, organise and critically evaluate information. Specific outcome 1, 2 and 4.
- Communicate effectively using visual, mathematical and/or language skills in the modes of oral and/or written presentation. Specific outcome embedded in the learning for this level of learner.
- Use science and technology effectively and critically, showing responsibility toward the environment and health of others. Specific outcome 1, 3 and 4.
- Demonstrate an understanding of the world as a set of related systems by recognising that problem-solving contexts do not exist in isolation. Specific outcome 1, 2 and 3.

All qualifications and unit standards registered on the National Qualifications Framework are public property. Thus the only payment that can be made for them is for service and reproduction. It is illegal to sell this material for profit. If the material is reproduced or quoted, the South African Qualifications Authority (SAQA) should be acknowledged as the source.

ASSESSMENT STRATEGY

UNIT STANDARD TITLE	Applying water to landscaped areas	UNIT STANDARD NUMBERS	119702
LEVEL	NQF Level 1	TOTAL CREDIT VALUE	3
TARGET GROUP	<p>This standard is aimed at people who work in or intend to work within the Horticulture industry in general and as applied in a specific environment.</p> <p>Those learners who acquire the outcomes of this standard will be able to apply water to landscaped areas.</p> <p>The qualifying learner is able to:</p> <ul style="list-style-type: none"> • Apply the optimum amount of water to various plants to ensure healthy growth and development. • Select the most suitable watering equipment to water various plantings. • Demonstrate the correct methods of watering to prevent run-off and wastage. • Utilise knowledge of good watering practices for the propagation and care of plants. 		

Context of Assessment	The Purpose of the Assessment
	<p>Range Addressed</p> <p>The range covered, refers to all the specific outcomes and assessment criteria as outlined by the unit standard.</p> <p>Candidates produce evidence that he/she can apply water to landscaped areas.</p>

	Assessment Approach
	<p>Assessment is focused on the applied competence of the learner and the relevant unit standard determines the assessment criteria.</p> <p>Summative Assessment This is a summative assessment and assesses Candidates taking part in the National Certificate in Ornamental Horticulture Learnership at NQF Level 1.</p> <p>RPL This assessment may also be used to assess Candidates for RPL purposes</p> <p>Diagnostic The results from this assessment can also be used for the purpose of Gap Fill training and will assist in the development of the Workplace Skills Plan.</p> <p>Rating Learners are rated "Competent" or "Not Yet Competent".</p>

Assessment Instruments	
Types of Evidence	Assessment Method
Direct	Observation to determine practical competence. Questioning by means of an oral or written test to determine foundational and reflective competence.
Assessment Conditions	
The collection of evidence for the purposes of this assessment will take place in the candidate's natural work environment and in the classroom. The candidate will be expected to demonstrate practical, foundational and reflective competencies as stipulated by the Unit Standards specific outcomes, range statements and assessment criteria.	

	Assessment Team
	<p>The assessment team consists of the following:</p> <ul style="list-style-type: none">▪ Evidence Collection Facilitator▪ Assessor▪ Internal Moderator (20% of all portfolios are moderated)▪ External Moderator (20% of portfolios are moderated)
	Special Assessment Needs
	<p>Special needs are dealt with in the Assessment Preparation Interview. Should the candidate present any special needs requests, the assessment will be adjusted, provided that the fairness, validity and reliability of the assessment are not compromised.</p> <p>In addition the knowledge test may be administered as a verbal or written assessment depending on the confidence and language levels of the candidates.</p>

ASSESSMENT PROCESS

The Steps:	How:
Prepare for the Assessment	<p>1. Review this assessment guide to:</p> <ul style="list-style-type: none"> ▪ Ensure that you understand all the requirements of the assessment in terms of evidence required to prove competence. ▪ Validate the assessment instruments against the candidate’s context. ▪ Ensure that you have familiarised yourself with all the policies and procedures referred to in the assessment guide. <p>2. Identify and prepare the candidate for the assessment by:</p> <ul style="list-style-type: none"> ▪ Conducting the “Assessment Preparation Interview, Sheet” where all the details regarding the assessment are discussed and agreed to by all parties. <p>OR</p> <ul style="list-style-type: none"> ▪ Provide the candidate with a letter detailing all the specifications covered in the “Assessment Preparation Interview Sheet.”
Conduct Assessment	<p>1. Review the assessment plan with the candidate.</p> <p>2. Collect the evidence in accordance with the instrument requirements.</p> <p>Please note that the checklist covers the following:</p> <p><u>Observation</u> This assessment requires the candidate to take a reading from 3 rain gauges, test the soil water content and demonstrate the correct rate of applying water to suit various soil types using, a hose end spray nozzle, a hose end cone sprinkler and a hose end rotary sprinkler as outlined by specific outcome 2 and 4 as well as the relevant assessment criteria and range statements.</p> <p><u>Knowledge Questioning</u> This assessment covers all the specific outcomes, range statements and assessment criteria as outlined by the unit standard and may be conducted as a written or oral test.</p> <p>Gather, record and make judgments on all the evidence.</p>

The Steps:	How:
<p>Make assessment Decision</p>	<ol style="list-style-type: none"> 1. Make assessment decision and discuss the results with the learner in a face-to-face interview. 2. Ensure that your feedback is developmental and supportive in nature. 3. Advise the candidate on what action to follow in the event of a “Not-Yet-Competent”. 4. Advise the candidate on what action to take where he/she feels the need to appeal your decision. 5. Allow the candidate time to provide you with feedback relevant to the process. 6. Ensure the candidate counter-signs the “Assessment Decision” to indicate his/her agreement to the feedback and overall score. 7. Record the candidate’s feedback in this guide and ensure that it is provided to the person responsible for the quality assurance of assessment tools. 8. Handle any disputes and identify matter that requires contingency planning.
<p>Review the Assessment Process</p>	<p>Complete the “Assessment Review” documents and submit to the assessment co-ordinator.</p>

<p>Assessor Signature</p>		<p>Date</p>

ASSESSMENT CONFIRMATION

Dear : _____ (Candidate
Name & Surname)

This serves as a confirmation that your “**Assessment Preparation Interview**” will be conducted on the _____(date) at _____(venue).

We will discuss:

- The purpose of the assessment.
- The date, time and venue of your assessment.
- The context of the NQF.
- And select the Unit Standard against which you will be assessed.
- The credit value, level, of the unit standard against which you will be assessed.
- The assessment procedure.
- The assessment methods to be used in your assessment.
- How the evidence will be collected.
- What evidence you are required to present on the day, whether direct, historical or indirect.
- Your special requirements, whether medical or personal, that will affect the assessment procedure.
- And agree to feedback procedures.
- The moderation process.
- Appeals procedure.
- Agree to and sign the assessment plan.

Please do not hesitate to contact me should you have any further queries.

Thank you

<p>_____, your assessment will be conducted at(time) on the(day) of(month) 200...(year) at(venue).</p> <ul style="list-style-type: none"> <i>(Allow the candidate to provide alternative dates, times or venues, where feasible.)</i> 			
<p>I will briefly explain the context of the NQF to you, to ensure that you understand the reasons for the assessment being conducted in this manner.</p>			
<p>You will be assessed against Unit Standard No: Apply water to landscaped areas @ NQF Level :1</p>			
<p>The Unit Standard is worth 3 credits <i>(Where the assessment is not based on an NQF Standard, please explain to the candidate that this field will not be completed.)</i></p>			
<p>In order to determine your competence levels, we will be conducting the assessment using various methods:</p> <p>You will be required to produce the following evidence in order to demonstrate your competence:</p> <ul style="list-style-type: none"> <i>(Explain the evidence requirements in terms of the assessment criteria.)</i> <i>(Explain what documentary evidence the candidate should produce on the day of the assessment, i.e. historical evidence, indirect evidence.)</i> <p><u>Observation</u> Covers all the practical competence as outlined by the specific outcomes, assessment criteria and range statement of the unit standard.</p> <p><u>Knowledge Questionnaire</u> Covers all the foundational competence as outlined by the specific outcomes, range statement and assessment criteria of the unit standard.</p>			

	√	X	Contingency
<p>Please provide us with details regarding any special needs you may have.</p> <ul style="list-style-type: none"> <i>(Explain to the candidate that these special needs may be of a medical or personal nature, e.g. requiring an interpreter, making provision for guide dogs, etc.)</i> <i>(Explain to the candidate that these needs will be catered for, within the parameters of assessment validity, fairness, and reliability.)</i> 			
<p>You will be provided with detailed feedback regarding your performance on(date) by means of</p> <p><i>(Explain methods, i.e. written, interview.)</i></p> <ul style="list-style-type: none"> <i>(Explain how and when feedback will be provided – indicate to the candidate, at which intervals feedback will be provided, using the assessment instrument.)</i> <i>(Explain the Moderation Process.)</i> 			
<p>In the event that you are rated “Not-Yet-Competent”, you will be entitled to one (1) re-assessment opportunity.</p> <ul style="list-style-type: none"> <i>(Explain the re-assessment procedure in terms of remedial coaching, etc.)</i> 			
<p>You are entitled to lodge an appeal should you not be in agreement with the assessor’s decision.</p> <ul style="list-style-type: none"> <i>(Explain the appeals procedure to the candidate...see appeals procedure attached.)</i> 			
<p>Your assessment results will be forwarded to the following departments:</p> <ul style="list-style-type: none"> <i>(Advise candidate of rights in terms of confidentiality agreements.)</i> <i>(Advise candidate of storage procedures.)</i> 			
<p>You will be afforded an opportunity to provide the assessor with feedback regarding the assessment procedure, to assist us in improving our assessment practices.</p> <ul style="list-style-type: none"> <i>(Advise candidate that the Assessor Review Document should be returned, together with the signed Assessment Decision Form (this is where you would acknowledge feedback provided by the Assessor))</i> 			
Candidate’s declaration of understanding			
<p>I herewith declare that I am ready for the assessment and that we have reviewed the assessment plan. I understand the assessment process and am happy that the assessment will be conducted in a fair manner.</p>

INSTRUCTIONS TO THE LEARNER

Your assessment is divided into two parts.

In the **practical assessment activity** the assessor will ask you to:

- Take a reading from three rain gauges.
- Test the soil water content.

And then show how you would adjust the watering rate for sandy soils, clay soils and loam soils when you are using:

- A hose end spray nozzle.
- A hose end cone sprinkler.
- A hose end rotary sprinkler.

After your practical assessment, the assessor will administer either a written or oral **knowledge test** and you can choose whether you want to answer the questions verbally or in writing.

- This assessment test is made up of 18 questions.
- Before answering the questions, take your time and read each question carefully to make sure that you understand the question.
- Please make sure that you answer all the questions.
- There is no time limit so you can take as long as you need to complete the questions.
- The assessor will contact you within the next five days to give you feedback on your assessment.

Knowledge Questions

Candidate	
Venue	
Assessor	
Score	
Percentage	

Questions

1. Why should you not water in windy conditions?

Questions

2. Why should you not water at the hottest time of the day?

3. What are the best climatic conditions and time for watering?

Questions

4. Describe the infiltration rate of the various soil types.

5. Why do you need to water at or below the soils infiltration rate?

Questions

6. Explain the effect that slopes and compaction have on the infiltration rate of soils.

7. How do the various seasons affect the water requirements of plants?

Questions

8. Why do you need to change the length and frequency of watering to cope with the various seasonal changes in evapotranspiration rates?

9. Why do you need to reduce the amount of water you give to deciduous plants when they are in their dormancy period?

Questions

10. If it is a hot summer's day, how would you change the frequency and quantity of watering to suit the evapotranspiration and rainfall as shown by rain gauge 1?

11. If it is a hot summer's day, how would you change the frequency and quantity of watering to suit the evapotranspiration and rainfall as shown by rain gauge 2?

Questions

12. If it is a cool spring day, how would you change the frequency and quantity of watering to suit the evapotranspiration and rainfall as shown by rain gauge 3?
